**IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF ARIZONA**

17 Paul A. Isaacson, M.D.; William Clewell, M.D.;
18 Hugh Miller, M.D.,

Plaintiffs,

vs.

19 Tom Horne, Attorney General of Arizona, in his
20 official capacity; William (Bill) Montgomery,
21 County Attorney for Maricopa County, in his
22 official capacity; Barbara LaWall, County
23 Attorney for Pima County, in her official
24 capacity; Arizona Medical Board; and Lisa
25 Wynn, Executive Director of the Arizona
26 Medical Board, in her official capacity,

Defendants.

Case No.

COMPLAINT

1 Plaintiffs, by and through their undersigned attorneys, bring this Complaint against
2 the above-named Defendants, their employees, agents, and successors in office, and in
3 support thereof allege the following:

4 **I. PRELIMINARY STATEMENT**

5 1. Plaintiffs bring this civil rights action under the United States Constitution
6 and 42 U.S.C. § 1983 to challenge the constitutionality of a provision within recently
7 enacted Arizona House Bill 2036 (hereinafter “HB 2036” or “the Act”) that bans abortions
8 beginning at 20 weeks of pregnancy. HB 2036, 50th Leg., 2d Reg. Sess. § 7 (Ariz. 2012)
9 (creating A.R.S. § 36-2159). This provision is scheduled to take effect August 2, 2012. A
10 copy of HB 2036 is attached hereto as Exhibit A.

11 2. The ban on abortions beginning at 20 weeks (“20 week ban” or “ban”)
12 violates the substantive due process rights of women seeking abortions. Under clearly
13 established United States Supreme Court precedent, the State of Arizona cannot ban
14 abortions prior to viability. With its narrowly defined medical emergency exception, the
15 ban also unconstitutionally endangers women’s health.

16 3. Plaintiffs seek a declaration that the 20 week ban is unconstitutional and
17 preliminary and permanent injunctive relief prohibiting its enforcement as to previability
18 abortions.

19 **II. JURISDICTION AND VENUE**

20 4. This court has jurisdiction under 28 U.S.C. §§ 1331, 1343(a)(3), and
21 1343(a)(4).

22 5. Plaintiffs’ action for declaratory and injunctive relief is authorized by 28
23 U.S.C. §§ 2201 and 2202 and by Rules 57 and 65 of the Federal Rules of Civil Procedure.

24
25
26

1 6. Venue in this Court is proper under 28 U.S.C. §1391(b) because a
2 substantial part of the events giving rise to this action occurred in this district and the
3 Defendants are located in this district.

4 **III. PARTIES**

5 **A. Plaintiffs**

6 7. Plaintiff Paul A. Isaacson, M.D., is a board-certified obstetrician and
7 gynecologist. He is licensed to practice in Arizona and provides services at Family
8 Planning Associates, a private medical practice located in Phoenix. Dr. Isaacson provides
9 a wide range of reproductive health care services, including abortions. Dr. Isaacson
10 regularly provides abortions before fetal viability (“previability abortions”) at and after 20
11 weeks gestational age. Dr. Isaacson sues on his own behalf and on behalf of his patients
12 seeking previability abortions at and after 20 weeks.

13 8. Plaintiff William Clewell, M.D., is a board-certified obstetrician and
14 gynecologist with a subspecialty in maternal-fetal medicine. He is licensed to practice in
15 Arizona, where he provides a wide range of prenatal care, high-risk pregnancy
16 management care, and labor and delivery services for women with high-risk pregnancies
17 at Banner Good Samaritan Hospital in Phoenix. In particular situations, where the
18 pregnancy threatens the woman’s life or health; where she is experiencing pregnancy
19 failure; and/or where the fetus has a severe or lethal anomaly, he performs a previability
20 pregnancy termination at or after 20 weeks. Dr. Clewell sues on his own behalf and on
21 behalf of his patients seeking previability pregnancy terminations at and after 20 weeks.

22 9. Plaintiff Hugh Miller, M.D., is a board-certified obstetrician and
23 gynecologist with a subspecialty in maternal-fetal medicine. He is licensed to practice in
24 Arizona, where he provides a wide range of prenatal care, high-risk pregnancy
25 management care, and labor and delivery services for women with high-risk pregnancies
26

1 at Tucson Medical Center in Tucson. In particular situations, where the pregnancy
2 threatens the woman's life or health; where she is experiencing pregnancy failure; and/or
3 where the fetus has a severe or lethal anomaly, he performs a previability pregnancy
4 termination at or after 20 weeks. Dr. Miller sues on his own behalf and on behalf of his
5 patients seeking previability pregnancy terminations at and after 20 weeks.

6 **B. Defendants**

8 General provides the Arizona Medical Board with legal counsel, including providing
9 assistance to the Board to interpret its obligations and enforcement responsibilities under
10 new legislation. *See* A.R.S. § 41-192. The Attorney General also represents the Board as
11 its legal counsel and defends its decisions to revoke or suspend physicians' licenses in
12 appeals before the state courts. *Id.*; *see also id.* §193. Mr. Horne is sued in his official
13 capacity.

14 11. Defendant William (Bill) Montgomery is the County Attorney for Maricopa
15 County, which encompasses the City of Phoenix. He has authority to prosecute criminal
16 violations of the 20 week ban. *See* A.R.S. § 11-532(A). Mr. Montgomery is sued in his
17 official capacity.

22 disciplinary sanctions against physicians who violate the challenged provisions.

23 14. Defendant Lisa Wynn is the Executive Director of the Arizona Medical
24 Board. The Board may delegate much of its disciplinary authority to the Executive
25 Director. *See* A.R.S. § 32-1405. Ms. Wynn is sued in her official capacity.
26

1 **IV. THE CHALLENGED PROVISIONS**

2 15. HB 2036, which contains 12 distinct sections, imposes a number of
3 restrictions on the provision of abortion services. Several of these provisions do not take
4 effect, however, until the Department of Health Services completes rulemaking. The 20
5 week ban is not subject to rulemaking and is scheduled to take effect on August 2, 2012.

6 16. The ban provides:

7 A. Except in a medical emergency, a person shall not perform, induce or
8 attempt to perform or induce an abortion unless the physician or the
9 referring physician has first made a determination of the probable
gestational age of the unborn child.

10 B. Except in a medical emergency, a person shall not knowingly perform,
11 induce or attempt to perform or induce an abortion on a pregnant woman
12 if the probable gestational age of her unborn child has been determined to
be at least twenty weeks.

13 HB 2036 § 7 (creating A.R.S. § 36-2159).

14 17. “Gestational age” is defined as “the age of the unborn child as calculated
15 from the first day of the last menstrual period of the pregnant woman.” A.R.S. § 36-
16 2151(4) (set forth as existing law in HB 2036 § 3).

17 18. The only exception to the 20 week ban is for a “medical emergency” defined
18 as:

19 a condition that, on the basis of the physician’s good faith clinical judgment,
20 so complicates the medical condition of a pregnant woman as to necessitate
21 the immediate abortion of her pregnancy to avert her death or for which a
22 delay will create serious risk of substantial and irreversible impairment of a
major bodily function.

23 A.R.S. § 36-2151(6) (set forth as existing law in HB 2036 § 3).

24 19. Violation of the 20 week ban is a Class 1 misdemeanor, punishable by up to
25 six months imprisonment. HB 2036 § 7 (creating A.R.S. § 36-2159(C)); A.R.S. § 13-
26

1 707(A)(1). A knowing violation of the 20 week ban also subjects a physician to discipline
2 for unprofessional conduct, which can result in license suspension or revocation. HB 2036
3 § 7 (creating A.R.S. § 36-2159(D)).

4 **V. STATEMENT OF FACTS**

5 20. Under current Arizona law, “[a] physician shall not knowingly perform an
6 abortion of a viable fetus unless: . . . the abortion is necessary to preserve the life or health
7 of the woman.” A.R.S. § 36-2301.01(A)(1). “‘Viable fetus’ means the unborn offspring
8 of human beings that has reached a stage of fetal development so that, in the judgment of
9 the attending physician on the particular facts of the case, there is a reasonable probability
10 of the fetus' sustained survival outside the uterus, with or without artificial support.” *Id.* §
11 2301.01(C)(3).

12 21. Although the point at which an individual fetus may attain viability varies,
13 no fetus is viable at 20 weeks.

14 22. An abortion ban that takes effect at 20 weeks will prohibit some previability
15 abortions.

16 23. The vast majority of abortions performed in the United States and in Arizona
17 occur in the first trimester of pregnancy. Only a small fraction of abortions are performed
18 at or after 20 weeks.

19 24. Women obtain abortions at or after 20 weeks for a variety of reasons,
20 including that continuation of the pregnancy poses a threat to their health, that the fetus
21 has been diagnosed with a medical condition or anomaly, or that they are losing the
22 pregnancy (“miscarrying”).

23 25. For women who seek abortions because continuation of the pregnancy poses
24 a risk to their health, these risks can come from exacerbation of a pre-existing medical
25 condition or can be caused by a condition related to or brought on by the pregnancy itself.
26

1 26. In many instances, although the threat to the woman’s health is serious, and
2 may become more so over time, it does not pose an immediate or severely time-sensitive
3 threat, such that it constitutes a medical emergency for purposes of the exception to the 20
4 week ban.

5 27. The definition of medical emergency applicable to the 20 week ban comes
6 from existing Arizona law which permits physicians to waive a mandatory 24 hour delay
7 for women seeking abortions if the woman is experiencing a medical emergency. A.R.S.
8 §§ 36-2151(6) (definition of medical emergency), 2153 (requiring, except in medical
9 emergencies, a 24 hour delay between receipt of state-mandated information and an
10 abortion), and 2156(A)(1) (requiring, except in medical emergencies, a delay between the
11 performance of an ultrasound and an abortion).

12 28. In the context of a mandatory delay, the definition of “medical emergency”
13 delineates when an abortion does not have to be *delayed* by an otherwise mandated 24-
14 hour waiting period. In the context of the abortion ban in HB 2036, however, the
15 definition of “medical emergency” delineates whether an abortion may be obtained *at*
16 *all*—even a previability abortion needed to preserve a woman’s health. Limiting the
17 reason that a woman may obtain a previability abortion to narrowly defined medical
18 emergencies places significant burdens on the health of some women seeking abortion
19 care.

20 29. As a result, under HB 2036, a woman seeking abortion care at or after 20
21 weeks due to a medical condition that threatens her health may either be prohibited from
22 doing so altogether, or may have to delay the procedure until her condition worsens to the
23 point where immediate action is necessary, and the abortion therefore meets the medical
24 emergency exception’s temporal requirements.

25 30. For these and other reasons, HB 2036 endangers women’s health.
26

1 31. Many women undergo prenatal testing at approximately 18 to 20 weeks
2 gestational age.

3 32. As a result of this testing, some women will learn that their fetus has a
4 medical condition or anomaly that is incompatible with life or that will cause serious,
5 lifelong disabilities. Some of these women will choose to terminate the pregnancy.

6 33. Under HB 2036, however, women wishing to have a previability abortion
7 for these reasons at or after 20 weeks will be unable to do so.

8 34. Although House Bill 2036 sets forth legislative findings and purposes
9 asserting that the 20 week ban is supported by “the documented risks to women’s health
10 and the strong medical evidence that unborn children feel pain during an abortion at that
11 gestational age,” HB 2036 § 9(B)(1), neither of these assertions – even if true – nor any
12 other asserted justification could support a ban on previability abortions.

13 **VI. THE IMPACT OF THE BAN ON PLAINTIFFS AND THEIR PATIENTS**

14 35. By prohibiting all abortions beginning at 20 weeks except those that come
15 within the Act’s narrow definition of medical emergency, HB 2036 will harm Plaintiffs’
16 patients by denying or delaying access to abortions, including abortions they seek to
17 preserve their health.

18 36. As a result of the 20 week ban, some women who find out about fetal
19 conditions or anomalies close to or after the 20 week cutoff may have inadequate time to
20 obtain additional information and to weigh their options of carrying to term or seeking a
21 previability abortion before they are foreclosed from obtaining an abortion.

22 37. Each of these harms constitutes irreparable harm to Plaintiffs’ patients.

23 38. The Act presents physicians with an untenable choice: to face criminal
24 prosecution for continuing to provide abortion care in accordance with their best medical
25 judgment, or to stop providing the critical care their patients seek.

FIRST CLAIM FOR RELIEF

(Substantive Due Process)

39. Plaintiffs reallege and hereby incorporate by reference Paragraphs 1 through 38 above.

40. The ban on previability abortions at or after 20 weeks, except in narrowly defined medical emergencies, violates the substantive due process rights of Plaintiffs’ patients, guaranteed by the Fourteenth Amendment, by banning previability abortions and endangering women’s health.

INJUNCTIVE RELIEF

41. Plaintiffs reallege and hereby incorporate by reference Paragraphs 1 through 40 above.

42. Plaintiffs’ claim meets the standard for injunctive relief. Plaintiffs and their patients do not have an adequate remedy at law and they will suffer immediate and irreparable injury if the 20 week ban is permitted to go into effect. Moreover, Plaintiffs have established a strong likelihood of success on the merits, the balance of equities tips strongly in favor of Plaintiffs and their patients, and the public interest will be served if Defendants are enjoined from enforcing the 20 week ban.

ATTORNEY’S FEES

43. Plaintiffs reallege and hereby incorporate by reference Paragraphs 1 through 42 above.

44. Plaintiffs are entitled to an award of reasonable attorney’s fees and expenses pursuant to 42 U.S.C. § 1988.

REQUEST FOR RELIEF

Wherefore, Plaintiffs respectfully request that this Court:

1 1. Issue a declaratory judgment that the 20 week ban, to be codified as A.R.S. §
2 35-2159, is unconstitutional as applied to previability abortions, under the Fourteenth
3 Amendment to the United States Constitution and in violation of 42 U.S.C. § 1983;

4 2. Issue a preliminary and permanent injunction restraining Defendants, their
5 employees, agents, and successors from enforcing the 20 week ban as to previability
6 abortions.

7 3. Issue an order prohibiting Defendants, their employees, agents, and
8 successors from bringing enforcement actions for previability abortions performed while a
9 Temporary Restraining Order, Preliminary Injunction, or Permanent Injunction are in
10 effect against the 20 week ban;

11 4. Award Plaintiffs their reasonable costs and attorney's fees pursuant to 42
12 U.S.C. § 1988; and

13 5. Grant such other or further relief as the Court deems just, proper and
14 equitable.

15
16 RESPECTFULLY SUBMITTED this 12th day of July, 2012.

17 ~~36-2152.~~ Parental consent; exception; hearings; time limits;
18 violation; classification; civil relief; statute of
19 limitations

20 A. In addition to the OTHER requirements of ~~section 36-2153~~ THIS
21 CHAPTER, a person shall not knowingly perform an abortion on a pregnant
22 unemancipated minor unless the attending physician has secured the written
23 and notarized consent from one of the minor's parents or the minor's guardian
24 or conservator or unless a judge of the superior court authorizes the
25 physician to perform the abortion pursuant to subsection B of this section.
26 Notwithstanding section 41-319, the notarized statement of parental consent
27 and the description of the document or notarial act recorded in the notary
28 journal are confidential and are not public records.

29 B. A judge of the superior court, on petition or motion, and after an
30 appropriate hearing, shall authorize a physician to perform the abortion if
31 the judge determines that the pregnant minor is mature and capable of giving
32 informed consent to the proposed abortion. If the judge determines that the
33 pregnant minor is not mature or if the pregnant minor does not claim to be
34 mature, the judge shall determine whether the performance of an abortion on
35 her without the consent from one of her parents or her guardian or
36 conservator would be in her best interests and shall authorize a physician to
37 perform the abortion without consent if the judge concludes that the pregnant
38 minor's best interests would be served.

39 C. If the pregnant minor claims to be mature at a proceeding held
40 pursuant to subsection B of this section, the minor must prove by clear and
41 convincing evidence that she is sufficiently mature and capable of giving
42 informed consent without consulting her parent or legal guardian based on her
43 experience level, perspective and judgment. In assessing the pregnant
44 minor's experience level, the court may consider, among other relevant
45 factors, the minor's age and experiences working outside the home, living
46 away from home, traveling on her own, handling personal finances and making

H.B. 2036

1 other significant decisions. In assessing the pregnant minor's perspective,
2 the court may consider, among other relevant factors, what steps the minor
3 took to explore her options and the extent to which she considered and
4 weighed the potential consequences of each option. In assessing the pregnant
5 minor's judgment, the court may consider, among other relevant factors, the
6 minor's conduct since learning of her pregnancy and her intellectual ability
7 to understand her options and to make an informed decision.

8 D. The pregnant minor may participate in the court proceedings on her
9 own behalf. The court shall appoint a guardian ad litem for her. The court
10 shall advise her that she has the right to court appointed counsel and, on
11 her request, shall provide her with counsel unless she appears through
12 private counsel or she knowingly and intelligently waives her right to
13 counsel.

14 E. Proceedings in the court under this section are confidential and
15 have precedence over other pending matters. Members of the public shall not
16 inspect, obtain copies of or otherwise have access to records of court
17 proceedings under this section unless authorized by law. A judge who
18 conducts proceedings under this section shall make in writing specific
19 factual findings and legal conclusions supporting the decision and shall
20 order a confidential record of the evidence to be maintained, including the
21 judge's own findings and conclusions. The minor may file the petition using
22 a fictitious name. For purposes of this subsection, public does not include
23 judges, clerks, administrators, professionals or other persons employed by or
24 working under the supervision of the court or employees of other public
25 agencies who are authorized by state or federal rule or law to inspect and
26 copy closed court records.

27 F. The court shall hold the hearing and shall issue a ruling within
28 forty-eight hours, excluding weekends and holidays, after the petition is
29 filed. If the court fails to issue a ruling within this time period, the
30 petition is deemed to have been granted and the consent requirement is
31 waived.

32 G. An expedited confidential appeal is available to a pregnant minor
33 for whom the court denies an order authorizing an abortion without parental
34 consent. The appellate court shall hold the hearing and issue a ruling
35 within forty-eight hours, excluding weekends and holidays, after the petition
36 for appellate review is filed. Filing fees are not required of the pregnant
37 minor at either the trial or the appellate level.

38 H. Parental consent or judicial authorization is not required under
39 this section if either:

40 1. The pregnant minor certifies to the attending physician that the
41 pregnancy resulted from sexual conduct with a minor by the minor's parent,
42 stepparent, uncle, grandparent, sibling, adoptive parent, legal guardian or
43 foster parent or by a person who lives in the same household with the minor
44 and the minor's mother. The physician performing the abortion shall report
45 the sexual conduct with a minor to the proper law enforcement officials

H.B. 2036

1 pursuant to section 13-3620 and shall preserve and forward a sample of the
2 fetal tissue to these officials for use in a criminal investigation.

3 2. The attending physician certifies in the pregnant minor's medical
4 record that, on the basis of the physician's good faith clinical judgment,
5 the pregnant minor has a condition that so complicates her medical condition
6 as to necessitate the immediate abortion of her pregnancy to avert her death
7 or for which a delay will create serious risk of substantial and irreversible
8 impairment of major bodily function.

9 I. A person who performs an abortion in violation of this section is
10 guilty of a class 1 misdemeanor. A person is not subject to any liability
11 under this section if the person establishes by written evidence that the
12 person relied on evidence sufficient to convince a careful and prudent person
13 that the representations of the pregnant minor regarding information
14 necessary to comply with this section are true.

15 J. In addition to other remedies available under the common or
16 statutory law of this state, one or both of the minor's parents or the
17 minor's guardian may bring a civil action in the superior court in the county
18 in which the parents or the guardian resides to obtain appropriate relief for
19 a violation of this section, unless the pregnancy resulted from the criminal
20 conduct of the parent or guardian. The civil action may be based on a claim
21 that failure to obtain consent was a result of simple negligence, gross
22 negligence, wantonness, wilfulness, intention or any other legal standard of
23 care. **THE CIVIL ACTION MAY BE BROUGHT AGAINST THE PERSON WHO PERFORMS THE
24 ABORTION IN VIOLATION OF THIS SECTION AND ANY PERSON WHO CAUSES, AIDS OR
25 ASSISTS A MINOR TO OBTAIN AN ABORTION WITHOUT MEETING THE REQUIREMENTS OF
26 THIS SECTION.** Relief pursuant to this subsection includes the following:

27 1. Money damages for all psychological, emotional and physical
28 injuries that result from the violation of this section.

29 2. Statutory damages in an amount equal to five thousand dollars or
30 three times the cost of the abortion, whichever is greater.

31 3. Reasonable attorney fees and costs.

32 K. A civil action brought pursuant to this section must be initiated
33 within six years after the violation occurred.

34 L. **THE CONSENT REQUIRED BY THIS SECTION MUST BE OBTAINED ON A FORM
35 PRESCRIBED BY THE DEPARTMENT OF HEALTH SERVICES. AT A MINIMUM, THE FORM
36 MUST:**

37 1. **LIST THE POSSIBLE MEDICAL RISKS THAT MAY OCCUR WITH ANY SURGICAL,
38 MEDICAL OR DIAGNOSTIC PROCEDURE, INCLUDING THE POTENTIAL FOR INFECTION, BLOOD
39 CLOTS, HEMORRHAGE, ALLERGIC REACTIONS AND DEATH.**

40 2. **LIST THE POSSIBLE MEDICAL RISKS THAT MAY OCCUR WITH A SURGICAL
41 ABORTION, INCLUDING HEMORRHAGE, UTERINE PERFORATION, STERILITY, INJURY TO THE
42 BOWEL OR BLADDER, A POSSIBLE HYSTERECTOMY AS A RESULT OF A COMPLICATION OR
43 INJURY DURING THE PROCEDURE AND FAILURE TO REMOVE ALL PRODUCTS OF CONCEPTION
44 THAT MAY RESULT IN AN ADDITIONAL PROCEDURE.**

45 3. **LIST THE POSSIBLE MEDICAL RISKS THAT MAY OCCUR WITH A MEDICATION
46 ABORTION, INCLUDING HEMORRHAGE, INFECTION, FAILURE TO REMOVE ALL PRODUCTS OF**

H.B. 2036

1 CONCEPTION THAT MAY RESULT IN AN ADDITIONAL PROCEDURE, STERILITY AND THE
2 POSSIBLE CONTINUATION OF THE PREGNANCY.

3 4. REQUIRE THE PREGNANT MINOR'S AND THE PREGNANT MINOR'S PARENT'S
4 INITIALS ON EACH PAGE OF THE FORM AND A FULL SIGNATURE ON THE FINAL PAGE OF
5 THE FORM.

6 5. INCLUDE A SPACE FOR THE NOTARY'S SIGNATURE AND SEAL ON THE FINAL
7 PAGE OF THE FORM.

8 M. THE PHYSICIAN MUST MAINTAIN THE FORM IN THE PREGNANT MINOR'S
9 RECORDS FOR SEVEN YEARS AFTER THE DATE OF THE PROCEDURE OR FIVE YEARS AFTER
10 THE DATE OF THE MINOR'S MATURITY, WHICHEVER IS LONGER.

H.B. 2036

1 (b) Offer to provide the woman with an opportunity to view the active
2 ultrasound image of the unborn child and hear the heartbeat of the unborn
3 child if the heartbeat is audible. The active ultrasound image must be of a
4 quality consistent with standard medical practice in the community, contain
5 the dimensions of the unborn child and accurately portray the presence of
6 external members and internal organs, if present or viewable, of the unborn
7 child. The auscultation of fetal heart tone must be of a quality consistent
8 with standard medical practice in the community.

9 (c) Offer to provide the woman with a simultaneous explanation of what
10 the ultrasound is depicting, including the presence and location of the
11 unborn child within the uterus, the number of unborn children depicted, the
12 dimensions of the unborn child and the presence of any external members and
13 internal organs, if present or viewable.

15 ultrasound image of the unborn child.

16 2. The woman certifies in writing before the abortion that she has
17 been given the opportunity to view the active ultrasound image and hear the
18 heartbeat of the unborn child if the heartbeat is audible and that she opted
19 to view or not view the active ultrasound image and hear or not hear the
20 heartbeat of the unborn child.

31 criminal conduct.

32 3. The maternal grandparents of the unborn child if the mother was not
33 at least eighteen years of age at the time of the abortion, unless the
34 pregnancy resulted from the plaintiff's criminal conduct.

35 D. A civil action filed pursuant to subsection C of this section shall
36 be brought in the superior court in the county in which the woman on whom the
37 abortion was performed resides and may be based on a claim that failure to
38 obtain informed consent was a result of simple negligence, gross negligence,
39 wantonness, wilfulness, intention or any other legal standard of care.
40 Relief pursuant to subsection C of this section includes any of the
41 following:

42 1. Money damages for all psychological, emotional and physical

30 Sec. 9. Findings and purposes

31 A. The legislature finds that:

32 1. Abortion can cause serious both short-term and long-term physical
33 and psychological complications for women, including but not limited to
34 uterine perforation, uterine scarring, cervical perforation or other injury,
35 infection, bleeding, hemorrhage, blood clots, failure to actually terminate
36 the pregnancy, incomplete abortion (retained tissue), pelvic inflammatory
37 disease, endometritis, missed ectopic pregnancy, cardiac arrest, respiratory
38 arrest, renal failure, metabolic disorder, shock, embolism, coma, placenta
39 previa in subsequent pregnancies, preterm delivery in subsequent pregnancies,
40 free fluid in the abdomen, organ damage, adverse reactions to anesthesia and
41 other drugs, psychological or emotional complications such as depression,
42 anxiety or sleeping disorders and death. See, e.g., P.K. Coleman, *Abortion*

9 *Placenta Previa*, Am. J. Obstet. & Gynecol. 141:7 (1981).

10 2. Abortion has a higher medical risk when the procedure is performed
11 later in pregnancy. Compared to an abortion at eight weeks of gestation or
12 earlier, the relative risk increases exponentially at higher gestations.
13 L. Bartlett et al., *Risk factors for legal induced abortion-related mortality*
14 *in the United States*, *Obstetrics & Gynecology* 103(4):729-737 (2004).

15 3. The incidence of major complications is highest after twenty weeks
16 of gestation. J. Pregler & A. DeCherney, *Women's Health: Principles and*
17 *Clinical Practice* 232 (2002).

18 4. The risk of death associated with abortion increases with the
19 length of pregnancy, from one death for every one million abortions at or
20 before eight weeks gestation to one per 29,000 abortions at sixteen to twenty
21 weeks and one per 11,000 abortions at twenty-one or more weeks. L. Bartlett
22 et al., *Risk factors for legal induced abortion-related mortality in the*
23 *United States*, *Obstetrics & Gynecology* 103(4):729-737 (2004). After the
24 first trimester, the risk of hemorrhage from an abortion, in particular, is
25 greater, and the resultant complications may require a hysterectomy, other
26 reparative surgery or a blood transfusion.

27 5. The State of Arizona has a legitimate concern for the public's
28 health and safety. *Williamson v. Lee Optical*, 348 U.S. 483, 486 (1985);
29 *Cohen v. State*, 121 Ariz. 6, 10, 588 P.2d 299, 303 (1978).

30 6. The State of Arizona "has legitimate interests from the outset of
31 pregnancy in protecting the health of women." *Planned Parenthood of*
32 *Southeastern Pennsylvania v. Casey*, 505 U.S. 833, 847 (1992); *Planned*
33 *Parenthood Arizona, Inc. v. American Ass'n of Pro-Life Obstetricians &*
34 *Gynecologists*, 257 P.3d 181, 194 (Ariz. App. Div. 1, 2011). More
35 specifically, Arizona "has a legitimate concern with the health of women who
36 undergo abortions." *Akron v. Akron Ctr. for Reproductive Health, Inc.*, 462
37 U.S. 416, 428-29 (1983).

38 7. There is substantial and well-documented medical evidence that an
39 unborn child by at least twenty weeks of gestation has the capacity to feel
40 pain during an abortion. K. Anand, *Pain and its effects in the human neonate*
41 *and fetus*, *New England Journal of Medicine*, 317:1321-29 (1987).

42 8. The United States Food and Drug Administration approved the drug
43 mifepristone, a first-generation (selective) progesterone receptor modulator
44 ([S]PRM), as an abortion-inducing drug with a specific gestation, dosage and
45 administration protocol.

H.B. 2036

1 9. As approved by the United States Food and Drug Administration, and
2 as outlined in the drug label, an abortion by mifepristone consists of three
3 200 mg tablets of mifepristone taken orally, followed by two 200 mcg tablets
4 of misopristol taken orally, through forty-nine days LMP (a gestational
5 measurement using the first day of the woman's "last menstrual period" as a
6 marker). The patient is to return for a follow-up visit in order to confirm
7 that a complete termination of pregnancy has occurred. *Mifeprex Prescribing*
8 *Information*, Danco Laboratories (July 2005), available at
9 http://www.accessdata.fda.gov/drugsatfda_docs/label/2005/020687s0131b1.pdf;
10 *Mifeprex Medication Guide*, Danco Laboratories (June 8, 2011), available at
11 www.accessdata.fda.gov/drugsatfda_docs/label/2011/020687s0141b1.pdf.

12 10. The aforementioned treatment requires three office visits by the
13 patient, and the dosages may only be administered in a clinic, medical office
14 or hospital and under supervision of a physician.

15 11. Court testimony demonstrates that some abortion providers fail to
16 follow the mifepristone protocol as tested and approved by the United States
17 Food and Drug Administration, and as outlined in the drug label. See, e.g.,
18 *Planned Parenthood v. Goddard*, CV2009-029110, Declaration of Beth Otterstein
19 at 3 (Sept. 10, 2009); *Planned Parenthood v. Horne*, CV2010-030230,
20 Declaration of Paul D. Blumenthal, M.D., M.P.H. (June 29, 2011); and *Planned*
21 *Parenthood Cincinnati Region v. Taft*, 459 F. Supp. 2d 626, 630 n. 7 (S.D. Oh.
22 2006).

23 12. The use of mifepristone presents significant medical risks to
24 women, including but not limited to *C. sordellii* bacterial infection, septic
25 shock, toxic shock syndrome, adult respiratory distress syndrome from sepsis,
26 *Escheria coli* sepsis, group B *Streptococcus* septicemia, disseminated
27 intravascular coagulopathy (DIC) with hepatic and renal failure, severe pelvic
28 infection and massive hemorrhage.

29 13. Abortion-inducing drugs are associated with an increased risk of
30 complications relative to surgical abortion. The risk of complications
31 increases with increasing gestational age, and, in the instance of
32 mifepristone, with failure to complete the two-step dosage process.

33 14. Medical studies have indicated that 1 to 2 out of every 1,000
34 women who undergo mifepristone abortions will require emergency blood
35 transfusion for massive hemorrhage. By April 30, 2011, the United States
36 Food and Drug Administration reported that at least 339 women required blood
37 transfusions for massive bleeding after mifepristone abortions. A total of
38 612 United States women have been hospitalized due to complications, and
39 fourteen women in the United States have died following administration of
40 mifepristone. The majority of reported deaths in the United States were from
41 fatal infection. Mifepristone U.S. Postmarketing Adverse Events Summary
42 through 04/30/2011, United States Food and Drug Administration, available at

44 [PatientsandProviders/UCM263353.pdf](http://www.fda.gov/downloads/Drugs/DrugSafety/PostmarketDrugSafetyInformationfor). This infection is atypical to the usual
45 presentation of sepsis and may occur without the typical signs of infection,
46 such as fever and tenderness. This atypical presentation requires that

H.B. 2036

1 mifepristone be dispensed only in a closely supervised clinical setting under
2 the direction of a licensed physician who has the direct ability to counsel
3 the patient regarding the risks, and also to examine the patient prior to and
4 after administration of mifepristone.

5 15. The absence of proper follow-up care after mifepristone
6 abortions has resulted in at least 58 women having undetected
7 ectopic pregnancies, including two deaths from ectopic rupture.

12 B. For these reasons, the legislature's purposes in promulgating this
13 act include to:

14 1. Prohibit abortions at or after twenty weeks of gestation, except in
15 cases of a medical emergency, based on the documented risks to women's health
16 and the strong medical evidence that unborn children feel pain during an
17 abortion at that gestational age.

18 2. Protect women from the dangerous and potentially deadly off-label
19 use of abortion-inducing drugs, such as, for example, mifepristone.

20 3. Ensure that physicians abide by the protocol tested and approved by
21 the United States Food and Drug Administration for such abortion-inducing
22 drugs, as outlined in the drug labels.

23 Sec. 10. Exemption from rule making

24 For the purposes of this act, the department of health services is
25 exempt from the rule making requirements of title 41, chapter 6, Arizona
26 Revised Statutes, for two years after the effective date of this act.

27 Sec. 11. Construction

28 This act does not establish or recognize a right to an abortion and
29 does not make lawful an abortion that is currently unlawful.

30 Sec. 12. Severability

31 If a provision of this act or its application to any person or
32 circumstance is held invalid, the invalidity does not affect other provisions
33 or applications of the act that can be given effect without the invalid
34 provision or application, and to this end the provisions of this act are
35 severable.
