

CENTER *for* REPRODUCTIVE RIGHTS

Pro Bono

Partnering with Pro Bono Lawyers Across the Globe to Advance Reproductive Rights

^
The Center partners with pro bono attorneys in more than 80 countries across the world, indicated in navy in the map above

As the only global legal advocacy organization dedicated exclusively to advancing and defending reproductive rights as human rights, the Center for Reproductive Rights works with a network of over 2,600 pro bono attorneys across more than 80 countries. Our Pro Bono Program, overseen by a global staff of pro bono professionals, engages firm attorneys in the Center's groundbreaking work on maternal health, assisted reproduction, access to contraception, and safe and legal abortion. Together, Center and firm attorneys advocate in courts, human rights forums, and legislative bodies to secure reproductive autonomy for women around the world.

LITIGATION AND ADVOCACY AROUND THE GLOBE

The Center works tirelessly across five continents to build, defend, and enforce reproductive rights, pioneering legal theories, developing jurisprudence, and strengthening legal protections to advance our mission. Our global program staff, experts in constitutional and international human rights law, have brought groundbreaking cases before national courts, United Nations committees, and regional human rights bodies that have expanded access to reproductive healthcare, including sexual and reproductive health information, safe legal abortion, maternal care free from obstetric violence, and assisted reproduction.

United States. We bring strategic impact litigation that focuses on ensuring access to reproductive healthcare in the wake of the

U.S. Supreme Court's decision to abandon the constitutional guarantee to safe legal abortion. We also engage in legislative and administrative advocacy through various strategies, such as providing legal analysis of legislation, and commenting on proposed regulations to policy makers in Congress, the Administration and state legislatures. This critical work is supplemented by pro bono counsel who partner with our U.S. staff in many ways including

- > Co-counseling on impact litigation before state and federal courts, including the U.S. Supreme Court and state courts of last resort
- > Drafting amicus briefs at various judicial levels, including the Supreme Court and appellate courts
- > Conducting legal research and analysis on a broad range of reproductive rights

CENTER *for* REPRODUCTIVE RIGHTS

A Powerful Force for Change

Since 2013, over

2,600

pro bono attorneys have
engaged with the Center
from over

100

law firms located in

84

countries.

Each year, pro bono lawyers
contribute, on average,

\$22m

in pro bono services

reproductiverights.org

New York • Washington D.C. •
Geneva • Bogotá • Nairobi

issue to support litigation and public policy
advocacy

- > Serving as thought partners and experts for
legal areas outside the Center's expertise
- > Providing transactional legal services to
Center partners and clients

Latin America and the Caribbean. We
build sexual and reproductive human rights
norms related to maternal care, sexual
and reproductive health education, forced
sterilization, and safe, legal abortion. Our
Bogotá office, in partnership with the Causa
Justa movement, played a critical role in
Colombia's decriminalization of abortion
and litigates cases before the Inter-Amer-
ican Court of Human Rights and the UN
on behalf of Indigenous and marginalized
women and girls. Pro Bono partners enhance
this work by:

- > Co-counseling and supporting innovative
litigation before international human
rights bodies
- > Drafting amicus briefs for the Center and
its partners in support of human rights
litigation
- > Conducting comparative research to sup-
port advocacy efforts, litigation strategy
and publications, and to provide founda-
tional knowledge for the region's work

Africa. We secure impactful court decisions
to build and strengthen legal protections for
sexual and reproductive health and rights
across the continent. Our Nairobi hub has
secured landmark victories on behalf of
Kenyan women and girls, affirming the right
to abortion under the Kenyan constitution,
and on behalf of Tanzanian girls through a
landmark ruling that ended the country's
longstanding practice of forcing girls in pub-
lic schools to undergo pregnancy testing and
subsequent expulsion if pregnant. Pro bono
lawyers support our work in region through:

- > Serving as thought partners on advocacy
and other law reform strategies
- > Drafting submissions to the United Nations
- > Providing foundational research and
supporting litigation development and
strategy
- > Developing cross-regional judicial train-
ing curricula on reproductive rights

Europe. From our office in Geneva, but with
additional staff in Belgium, Spain, and Ger-
many, we serve as legal and policy leaders in
the region, supporting national and regional
litigation and advocacy, and respond to
emerging threats and political develop-

ments. Our European team works with pro
bono counsel to:

- > Publish comprehensive reports on sexual
and reproductive rights inequities among
European Union member states and the
United Kingdom
- > Provide amicus counsel at national and
regional judicial bodies
- > Develop strategies for EU advocacy

Asia. Our attorneys are based in Ban-
gladesh, India, Nepal, Pakistan, and the
Philippines, collaborating with partners to
strengthen legal rights to safe abortion and
post-abortion care, contraception, maternal
health services, and to create human rights
norms for surrogates. In Asia, we partner
with pro bono firms to:

- > Research laws and policies to strengthen
the Center's ability to support regional
partners
- > Provide technical support to Center advo-
cacy efforts before United Nations Treaty
Monitoring Bodies
- > Train Center staff and partners on legal
issues impacting the Center's work, such
as data privacy and digital security

BUSINESS AND REGULATORY PRO BONO SUPPORT

The Center also relies on the expertise of
its law firm network for a variety of its own
corporate, business, and regulatory legal
needs, including:

- > Corporate governance advice
- > Guidance on labor and employment issues
for the Center's 200+ staff across the globe
- > Counsel on lobbying and electioneering
issues
- > Intellectual property advice in connection
with the Center's external communica-
tions and trademarks
- > Data privacy and cybersecurity-related
counsel

HOW TO GET INVOLVED

The Center for Reproductive Rights invites
law firms and corporate counsel to join us in
advancing reproductive rights.
